About Me

Aspiring Software Engineer with a strong focus on Full-Stack Development. Proficient in HTML, CSS, Graphics using Glut,UI, JavaScript, and React, with hands-on experience in building responsive, modern, and user-centric web applications. Passionate about writing clean, maintainable code and delivering seamless user experiences. Actively engaged in competitive programming with solid problem-solving abilities and a strong foundation in Data Structures and Algorithms. Continuously learning emerging technologies and contributing to academic and personal projects to develop scalable and efficient real-world software solutions.

Project

- Restaurant Management System Web App
- Super Shop Management System Web App
- Fraud Detection System Using AI
- Traffic Road Accident Pattern Recognition Using Hybrid ML
- Traffic System in a City Using Graphics.h
